WHY IS UNDERSTANDING MY CHILD'S DEVELOPMENT IMPORTANT?

Your child's behavior is linked to their development. The more you understand about your child's behaviors, the more connected you will be and the better you can express care and love to them.

YOU ARE YOUR CHILD'S FIRST AND MOST IMPORTANT TEACHER

Make time each day to connect, talk and play with your child. Children who feel cared for and loved develop stronger social-emotional skills like confidence and self-esteem, which make it easier for them to manage their emotions so they can do better in school and beyond.

WHAT CAN I DO?

Complete a developmental check-up using the Ages and Stages Questionnaires (ASQ and ASQ:SE) available in the library or at www.First5EIDorado.com/resources. Understanding your child's development brings you closer, and helps parents teach their child the social-emotional skills they need to learn and grow. Connect with other families and parenting resources by attending playgroups and parenting workshops offered through your Hub.

LET'S SEE WHAT YOU CAN DO NEXT!

HOW DO I KNOW?

Parenting is part natural and part learned. As your child grows, they will reach new milestones and each stage will bring a new way to connect. When parents and caregivers learn to recognize the feelings behind their children's behaviors, parenting is easier. Stay in tune to your child's feelings as they grow and complete regular developmental check-ups.

WHO CAN I TALK TO?

If you have parenting questions, concerns or you need to be connected to other community resources, you can contact a Family Engagement Specialist:

Hub 1 & 4
Katie Rinehart
(530) 919-6898

Hub 2 & 3
Jesus Cordova (bilingual English/Spanish)
(530) 957-3153

Hub 5
Silke Rover
(530) 543-8204
